

1st July 2021

Dear Customers,

SUGIYAMA ELECTRIC SYSTEM INC.
Masaaki Sugiyama (Managing Director)

Information on material change and price revision of spring sensor US-4 and USD-4

We would like to express our sincere gratitude for your continued support.

Now that the Bakelite used for the spring sensor US-4 and USD-4 has become difficult to produce stably due to processing reasons, so we will change it to Polyacetal. In addition, we will revise the selling price according to the material change.

We kindly ask for your understanding of current circumstances.

We look forward to your continued patronage of our products.

Sincerely yours

Notice

1. Product

- US-4 and USD-4

2. Content

- The body material of US-4 and USD-4 will be changed from Bakelite to Polyacetal.
The body color changes from brown to white.
- The price will be changed from the August 2021 order.

If you have any questions or asking, please contact our sales office.
