

March,2021

Dir Sir,

SUGIYAMA ELECTRICSYSTEM INC.

**Notice of end of sales of encoder ECD-01 and request for price revision**

We would like to express our sincere gratitude for your continued support. Now that the rotary encoder used for the digital cams PS-731 and PS-711 at our company has been discontinued. And we will change it to a replacement. In addition, we have decided to revise the selling price of digital cams for the cost increase due to alternative products. We kindly ask for your understanding of current circumstances. And we look forward to your continued patronage of our products.

Sincerely yours,

Notice

1. Product

- Encoder (ECD-01A) attached to digital cams such as PS-731 and PS-711.
- ECD-01A Encoder assembly
- ECD-01 Encoder body

2. Content

- PS-731 and PS-711 will change the included encoder and selling price from the May 2021 order.  
\* The price of the controller only remains unchanged.
- "-V" is added to the end of the purchase order code.  
EX.) PS711-041518CN-V                      PS731-041518DDD--AAA-V
- ECD-02A encoder assembly and ESD-02 encoder body will be available for sale in May.
- ECD-01A encoder assembly and ECD-01 encoder body will be discontinued as soon as they are out of stock.

If you have any questions or asking, please contact our sales office.

○Outside dimension

The cable pull-out direction of ECD-02 is on the side of the encoder. It can be pulled out from four directions by assembling the encoder and encoder bracket. Moreover, the encoder shaft diameter changes from  $\phi 6$  to  $\phi 8$ .
